COURSE-IN-A-BOX · INSTRUCTOR LICENSE

Teach MySQL Foundations

A ready-to-deliver course that takes complete beginners from an empty laptop to designing, querying, protecting and backing up a relational database on MySQL 9.7 LTS, on one bookstore's data, ending in a final project.

`14 × 3 h = 42 h` `Part 1: 7 × 3 h = 21 h` `168 self-checks` `468 slides` `57 lab pairs`

WHO IT'S FOR

Learners: spreadsheet users, aspiring analysts and developers, career changers. **Prerequisites: none** beyond everyday computer skills; no SQL or programming. **Programs:** trainers, bootcamps, colleges, corporate L&D, workforce programs; weekly, twice weekly or intensive.

TWO WAYS TO RUN IT

FULL PROGRAM · 14 SESSIONS · 42 H

Part 1 plus Part 2 (Beyond the Basics): CTEs, window functions, indexes, views, design, procedures, transactions, JSON, users, backups; a final project for a client brief.

PART 1 ONLY · 7 SESSIONS · 21 H

SQL Foundations: install, build tables, change data, filter, summarize, nest and join. A complete short course ending in a scored 60-minute assessment.

WHAT LEARNERS CAN DO AFTER IT

- Install MySQL; design tables with types, keys and constraints; change data safely
- Answer business questions with WHERE, GROUP BY, subqueries and joins (Part 1)
- Use window functions, CTEs, indexes, views, procedures and transactions
- Grant least privilege, back up and prove the restore; deliver a portfolio project

WHAT YOU GET

FOR EVERY SESSION (×14)

- **Facilitator guide:** 0:00–3:00 agenda, scripted demos with real output, what to cut
- **Workbook** with a 12-item self-check; **answer key**; **slide deck**; new **labs**

ACROSS THE KIT

- Combined print-ready books; 57 lab pairs + 27 find-the-bug handouts, checked against a real server by one command
- Setup guide, environment check, two checkpoints, **Part 1 assessment**, **final project** with rubrics and reference answers, syllabus

WHY INSTRUCTORS CHOOSE IT

One fictional bookstore that grows with the course (no privacy risk) · **honest pacing:** demo, guided lab and project start in the room, the rest at home · **every result is real:** all SQL was run on MySQL 9.7, with notes for 8.4 and MariaDB · **free tools** on Windows, macOS, Linux or Docker.

LICENSE & PRICING

Full program: Solo [$997] one instructor · **Organization** [$2,997] all instructors at one org · **White-label** [$5,997] your branding · updates [$199/yr]. **Part 1 only:** [$597] · [$1,797] · [$3,597] · [$119/yr]; upgrade for the difference. One-time fees, unlimited students.

Suggested anchors, set at point of sale. Practice data included; MySQL is free and installed by each learner; terms in `LICENSE.md`. Ask for a sample session: rays-home.netlify.app/contact.

A complete, ready-to-teach MySQL curriculum, from first query to database design.
